

Our address at 724 South Michael Road is easy to find. Just look for the large "Welcome to St. Marys" stone in the middle of the General Edward Meyer Boulevard (Rt. 255) in the downtown area. From the area of this famous stone just follow the green airport directional signs. We are at 724 South Michael Road, which is also the road to the St. Marys airport. From the downtown area you are only 4 minutes from **Carved In Stone, Inc.**

If you have the site prepared when we deliver we'll set your stone. We recommend that you dig out an area approximately 12" deep, and 12" longer and wider than your stone. Fill the hole with limestone chips or gravel and set your stone in the center, taking special care in leveling it. Stones set on top of mulch or on a lawn will not stand on their own for long.

**C**arved In Stone products are made from beautiful hand-selected native Pennsylvania sandstone. Our art work and lettering is carved deep and in unbelievable detail. Our master stone carvers can do anything, and specialize in custom logos and art. We are limited only by your imagination!!! Our stones are big, bold, beautiful and forever. But, that's not all, they make statements to all who admire them, and a terrific gift for your friends and relatives who thought they had everything.

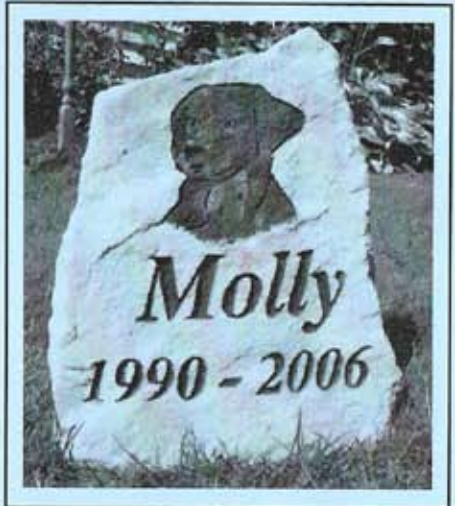

at (814) 834-3397 and the go-ahead. Normally we'll have your stone finished in only 7 to 10 days.

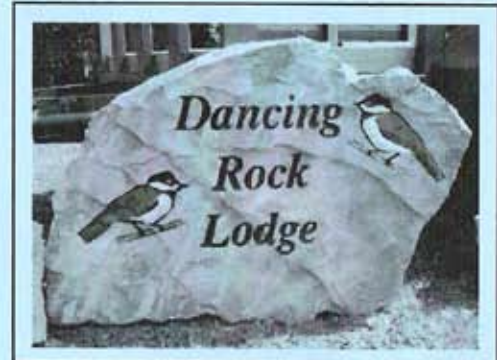

The question we are most frequently asked is "how do you do that?" Our technique was developed over a period of six years through "trial and error." Needless to say, it is a closely guarded secret. But, we can tell you this much - a lot of time and patience is used!

To order you can either stop by our place of business in St. Marys and choose your stone from our display of 50 to 70; or just give us a call
